Singularities

- Multidisciplinary and interdisciplinary, built on research teaching is based on the latest scientific advances.
- 4 engineering schools, a management school, *Sciences Po* (Institute of Political Studies) Strasbourg, the *Centre universitaire d'enseignement du journalisme* (school of journalism), the Centre for International Intellectual Property Studies (CEIPI), the Faculties of Protestant and Catholic Theology, an *Institut du travail* (Institute of Work) , a “factory-school”, a Training Center.
- Bi- and trinational courses on a European campus.
- 18 Nobel laureates including 5 in activity: Jean-Marie Lehn, Martin Karplus and Jean-Pierre Sauvage in chemistry, Jules Hoffmann in physiology and medicine, Richard Schrock in chemistry.

The goal: Success

- Personalised support
- *Booste ta rentrée*:
3 days to find your feet
- *Parcours Rebond*:
changing course
- *Include* and *Ecri+*
- *Mission Handicap*
- The *Réseau Alumni* (Alumni Network):
to “really stay connected!”

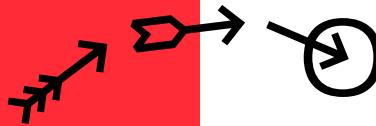

Student life

- Welcome Days:
Welcome, students!
- 256 student associations
- 88 sporting activities
- A 'student commitment diploma'
- A social solidarity grocery store:
'AGORAé'

The *Institut de développement et d'innovation pédagogique*

- Professional development
of teachers and researchers
- Student success
- The Pedagogical Laboratory
- The *C@fé* (Learning Lab)

Helping future
students to choose
the right path, with

- Helping future students to access information about the complex range of courses provided on the Alsace site
- Supporting, encouraging and facilitating the course choices of all future students on the Alsace site
- A system for accessing services providing information and help with course choice for people living far away
- 9 initiatives focussing on the 3 years pre-bac to 3 years post-bac period

Crossing the frontiers of knowledge

*“There is something unique about science:
the absence of borders and of walls”*

It dares to excel!

- A world-renowned centre of excellence
- Close ties with major research organisations
- A research ethics committee
- A scientific integrity adviser

What makes us stand out

- The Institute for Advanced Studies (USIAS)
- The *Espoirs de l'Université de Strasbourg* science prizes
- The *Pôle unique d'ingénierie*
- The Interdisciplinary Thematic Institutes
- Open sciences

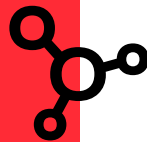

The **Interdisciplinary thematic**
institutes of the University
of Strasbourg &  & **Inserm**

- Promoting interdisciplinarity
- Bridging training and research
- Expanding internationalisation
- Rising up to the scientific and societal challenges of the 21st Century

Open sciences

scienceouverte.unistra.fr/en

- An open-access platform for scientific publications: UniVOAK
- Opening up research data
- Developing open publishing
- Internal training of staff
- Ethical research
- A new way to assess research
- Disseminating and co-constructing knowledge with society, including OSCAHR
- Participatory research and sciences

Cutting-edge equipment

Scientific recognition of research

- 5 active Nobel Prize winners: Jean-Marie Lehn, Martin Karplus and Jean-Pierre Sauvage in chemistry, Jules Hoffmann in physiology and medicine. Richard Schrock in chemistry is an associate professor.
- 4 *CNRS* gold medallists: Thomas Ebbesen (2019), Jules Hoffmann (2011), Jean-Marie Lehn (1981), Pierre Chambon (1979)
- 2 *CNRS* innovation medals: Denis Spitzer, chemistry (2022), Sylviane Muller, immunology (2015)
- 2 Kavli Prizes : Jean-Louis Mandel, neurosciences (2022)
Thomas Ebbesen, nanosciences (2014)
- 1 Henri-Poincaré Prize : Nalini Anantharaman, mathematics (2012)
- 1 Fields medal : René Thom (1958)

Innovation,
it goes without saying

A campus of innovation

→ **63**

scientific research
and service platforms

→ **3000**

students trained
every year
in entrepreneurship

→ **368**

€M raised

→ **48**

start-ups created

Close relationships with the socio-economic world

- Promotion and tech transfer
- Entrepreneurship and start-ups
- Professional integration
- Lifelong learning
- Participation in university life
- Knowledge of the university

New projects (since 2021)

- Open University of Strasbourg (Opus)
- The *Pôle universitaire d'innovation* (University Innovation Centre - PUI)

Connected to the world

Open to the city

Sharing knowledge with society

- The *Jardin des sciences*, or how to instil a taste for sciences
- University-Society meetings
- The *Carte Culture*

Unistra is committed to ecological transition

- An ecological transition plan
- A vice-presidency and a mission for Sustainable Development and Societal Responsibility
- Three fundamental principles
- Eco-responsibility charters

Equality, parity, diversity

- An action plan for professional equality between women and men
- A vice-presidency for Equality, Parity and Diversity
- A counselling and support unit for the victims and witnesses of sexist, sexual and homophobic violence

Operation campus: thriving at the University of Strasbourg

About thirty projects launched over 25 years for a total investment of €330M.
